Magnolia Bank Donates \$27K to LaRue County Parks and Recreation

Donation will support construction of soccer and football fields

HODGENVILLE, Ky. – Magnolia Bank announced today a \$27,800 donation to LaRue County Parks and Recreation for the construction of a full-size soccer and football field. LaRue County Parks and Recreation is redeveloping the community park for local families and an estimated 800 children who are active in little league programs.

“Our park is a safe place for kids to exercise, socialize and develop skills that will be useful throughout their lives,” said Daniel Thomas, treasurer for LaRue County Parks and Recreation Board of Directors. “We are grateful for Magnolia Bank’s generous support of LaRue County and the families who live here, and we’re very excited to open the first dedicated youth soccer and football fields in the community.”

The board’s plan to construct new sports fields and repurpose the public pool area is expected to double current use of the park. The improvements will also allow the park to host weekend tournaments – bringing more visitors to the community and increasing foot traffic for local businesses and restaurants.

“LaRue County Parks and Recreation’s core values of family, collaboration, accessibility and meeting the needs of the community align perfectly with ours,” said Magnolia Bank President and COO Deena London. “This project will improve quality of life for LaRue County children and families, while boosting the local economy and tourism. We’re proud to be involved.”

LaRue County Parks and Recreation’s primary purpose is to provide adequate recreational sports and activities for the community. Magnolia Bank’s donation covers half the cost of the new fields and will help the park purchase an irrigation system, scoreboards and more.

Magnolia Bank is an independent, community bank serving customers since its establishment in 1919. With 100 years of banking expertise, Magnolia Bank is committed to an excellent customer experience, enhancing shareholder value and supporting local communities.
